

Pump Manager 2™

Specifications

Rain Bird® Pump Manager 2 is engineered for the golf course professional looking to simplify pump control, monitoring and data reporting. This powerful software application gives you full control of your pump station from your computer or central control.

Features and benefits

- Pump Manager 2 provides a direct link to the pump station touch screen so you can view and modify pump operations from your computer or tablet as though you were standing right in front of it.
- Since all pump operation data is contained on your computer, Pump Manager 2 and its built-in reporting capabilities can keep you apprised of operations, flow, water use and other key information.
- Pump Manager 2 includes common reports for future review or regulatory reporting.
- For customized reporting, data can be exported in a file compatible with common spreadsheet applications such as Microsoft® Excel®.
- Pump Manager 2 is standard with ten different language options.
- Pump Manager 2 can be used with any stand-alone computer or fully integrated with Rain Bird's many central control systems.
- Best of all, Pump Manager 2 is fully integrated with Rain Bird's exclusive central control feature, Smart Pump™.
- Pump Manager 2 can retrieve and manage data from multiple pump stations, allowing users to manage all the pump stations on their property.
