

XFCV Dripline with Heavy-Duty Check Valve

RAIN BIRD

2.4 meters OF
HOLD BACK

Water is held back 2.4 meters thanks to Rain Bird's 0.24 bars check valve

OTHER BRANDS

1.4 meters OF
HOLD BACK

Only 1.4 meters of water is held back with 0.14 bars check valves

Rain Bird's patent-pending check valve technology keeps the dripline charged even with extreme elevation changes

SLOPES

Elevated Performance

Keeps dripline charged with water even with elevation changes to 2.4 meters.

Greater Flexibility

Rain Bird's proprietary blend provides industry leading flexibility allowing for tighter turns with fewer elbows for fast and easy installation.

Conserves Water

Prevents puddling and water loss at the low point of the dripline.

Cost Effective

Make you save water, time and money.

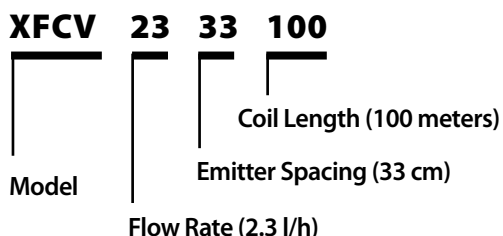

Rain Bird® XFCV Dripline with Heavy-Duty Check Valve for on-surface applications adds a valuable member to the XF Series family of Rain Bird Landscape Drip products. Rain Bird's patent-pending check valve is the most effective dripline in the industry addressing applications where elevation changes exist.

XFCV Dripline Models

- XFCV2333100
- XFCV2350100

How to Specify

Rain Bird's patent-pending check valve is the most effective dripline in the industry addressing applications where elevation changes exist. With the ability to keep the dripline charged in elevation changes to 2.4 meters, Rain Bird's XFCV can be used where no other dripline will work; keeping water in the dripline at all times helps for better uniformity of irrigating the plants throughout the entire zone.

The check valve also helps to prevent over-watering at the low-point in the zone, avoiding puddling from water draining from the dripline.

**Rain Bird's Professional
Customer Satisfaction Policy**

XF Series Dripline offers five (5) years on product workmanship and seven (7) years on environmental stress cracking
